

Leap into Your Best Benchmark Yet!

Take off with these quick tips for benchmark success.

TEACHER-ASSIGNED ASSESSMENTS

Before Benchmark Window

Make a Plan

Determine when and how your students will complete their assessment. Some teachers find testing in small groups helpful.

Prepare Students

Introduce Amira using the [slide decks and videos](#). Explain what to expect and have students practice logging in.

Get Devices Ready

If this is your first benchmark, [set up your devices](#). Otherwise, make sure that students do a full device restart the week of the benchmark. [Check mic functionality](#).

Check Assessment Settings

Confirm all students have the [correct language setting](#) for the assessment.

Assign the Benchmark

[Assign the benchmark](#) so students receive it the next time they log in.

During Benchmark Window

Set Up Your Classroom

Spread students out so Amira can hear them clearly. Use testing dividers, headphones, or other tools to help students focus if available.

Remind Your Students

Explain why they're taking the assessment and encourage them to read loud and proud. Replay the [student prep video](#).

Monitor Assessment Status

Check the [ISIP Assess Status widget](#) to monitor assessment status.

Need Help?

Click Amira to ask a question or speak with a live agent, browse our [support articles](#) or send us an [email](#).
